

COLLABORATION CONTINUES WITH DUSTIN AND CLARION - two new pop-up workspaces have been set up

CLARION HOTEL STOCKHOLM & POST HOTEL GÖTEBORG 2021-06-31

Dustin Business Suite as the concept is called has since September 2020 been a collaboration between the Hotel chain Clarion, IT specialist Dustin, Götessons and David design and since then three pop-up workspaces have been decorated where it placed great emphasis on creating an ergonomic, comfortable and nice decor.

Two more pop-up workspaces have been decorated at the Clarion Hotel in Stockholm and the Post Hotel in Gothenburg. The first-mentioned pop-up work surface, have been decorated with recycled furniture. They were used to demonstrate the long service life and to reduce the environmental impact. Götessons has developed an upcycling concept due to that. There the products can get new life with a little refreshment and maybe they get a new environment that they call LOOP.

- The office space at Clarion Hotel Sign is very popular and has been crowded almost every day since we opened the gates. We are very happy about this collaboration and it can be fantastic that we now can offer nice, ergonomic and equipped workplaces in even more hotels, says Henrik Berghult, Operations Director Clarion Hotel Sweden.

Furnishings from Götessons in Stockholm

At Clarion Hotel Stockholm, there are 6 equipped recycling workplaces, among other things *ScreenIT A30* desktop screens and *Tulip* desk lamps. The sound-absorbing house *Half a Hut Lounge* which offers a convenient and easily accessible place is also on the floor surface. Some *iQseat* chairs and several *Office Ballz* to sit on are also deployed. In addition, it is available in different groups with seating furniture *Office Nap*, *Hang On* and *SMS-Box* on the surface. In order to attenuate the sound, there are several acoustic products such as *Woodstock*, *Nivå* and *Plant Divider* with associated true-to-nature plants from Götessons.

Furnishings from Götessons in Gothenburg

The Clarion Hotel Post in Gothenburg also has 6 equipped workplaces with *ScreenIT A30* desktop screens and *The Lightning* desk lamps. *Open Half Hut* with associated seating and cushions, is the sound-absorbing house that offers relaxed meetings or shielded work. Even here there are different varieties of seating as *Office Nap*, *Office Ballz*, *Hang On* and *iQseat*. In addition, there are lots of true-to-nature plants on the surface in e.g. *Plant Divider* and baskets.

Furnishings from David design

At the equipped workplaces At Clarion Hotel Stockholm and at Clarion Post Hotel in Gothenburg, there is the classic chair *Skift Wheel* and the designed sofatable *Opi* by Lars Hofsjö. At Gothenburg, there is also the classic chair *Portia Lounge* designed by Superlab. The classic tables *Marigold* and *Pluvial* designed by Claesson Koivisto Rune and Federico Churba can be found in Stockholm at Clarion Stockholm.
